

# Mentoring A G I R L In C onstruction

## MAGIC Summer Camp 2012

June 25 – June 29, 2012

Cal Poly and the CCCE

The National Association of Women in Construction in collaboration with California Polytechnic State University (Cal Poly), Construction Innovations Center and the California Center for Construction Education (CCCE) will offer 24 girls the opportunity to learn in a hands-on, **FREE** one-week summer day camp the basic skills of carpentry, electrical, plumbing, concrete and more. Camp activities also include a construction site visit, safety education, industry overview to include architecture, engineering, estimating and scheduling activities, tool demonstrations and much, much more!

This camp is designed to challenge local high school girls to discover the many opportunities available in this exciting and rewarding industry. The girls will learn the history of women in construction as well as valuable life long skills. Guest speakers and camp counselors will include women and men employed in the construction industry.

**YES!** I am very interested in Registering for the NAWIC MAGIC Construction Summer Day Camp to be held at Cal Poly's Construction Innovations Center Building 186, San Luis Obispo, CA.
